

RPSI
detergents
SHINE.™

TRANSPORTATION SPECIALTY

Dedicated for particular painted surfaces, these detergents are delicately balanced to power through vehicle grime. Rust and corrosion inhibitors are Accu-blended™ to protect vehicle exteriors. Formulated for high pressure, hot water cleaning.

LUMA SHINE 501

One of the strongest products on the market. Extremely powerful. One application can make oxidized aluminum look brand new. Removes tough smoke, carbon, grease, oils and built-up road film. Does NOT contain Hydrofluoric Acid. Not for use on polished aluminum, glass or anodized aluminum. Industrial use only.

Ideal for: aluminum trailers.

Description: clear liquid. 35% actives.

Application: downstream, pre-spray, cold water.

LUMA SHINE 2 502

One of the strongest products on the market. The economy version of Luma Shine 501. Great for 90%+ of aluminum brightening applications. One application can make oxidized aluminum look brand new. Removes tough smoke, carbon, grease, oils and built-up road film. Does NOT contain Hydrofluoric Acid. Not for use on polished aluminum, glass or anodized aluminum. Industrial use only.

Ideal for: aluminum trailers.

Description: clear liquid. 32% actives.

Application: downstream, pre-spray, cold water.

POWER BLAST 2 508

Heavy, caustic-based industrial detergent. Safe for food preparation applications. Not for use on cars, trucks, aluminum or polished aluminum, magnesium or galvanized metals.

Ideal for: engines, fifth-wheel, off-road and construction equipment.

Description: red liquid. 17% actives.

Application: downstream, pre-spray, hot water.

PHOSCLEAN 510

Acidic detergent removes hard set-up concrete, smut. Also removes water scale and rust on metal and glass. Safe on metal and glass when used as directed.

Ideal for: trucks, equipment, welded equipment/tools, metal or glass.

Description: clear liquid. 45% actives.

Application: downstream, pre-spray, cold water.

LUMAPOLISH 511

High performance formula. Removes heavy deposits of soiling and aluminum oxidation. Also removes smut from welding. Cleans most aluminum soils and gives back the shine and luster to aluminum metals. Contains a very heavy inhibitor package to help protect polished aluminum.

Ideal for: aluminum, polished aluminum, stainless steel.

Description: clear liquid. 22% actives.

Application: downstream, pre-spray, cold water.

FC GLOSS 516

Water resistant coating brings out shine and luster of dull paint while leaving a clear thin film of protective wax. Beads easily for rapid drying time.

Ideal for: car wash applications. glass, chrome, rubber, painted, plastic and metal car surfaces.

Description: gold liquid. 36% actives. Ships UPS.

Application: upstream, downstream, pre-spray, hot or cold water.

Note: add to vehicle wash to enhance results.

FOAM 517

Unique blend of wetting agents provides effective penetration of cleaning surfaces. Extremely free-rinsing. Contains water softening agents for superior results in both hard and soft water.

Ideal for: brush or spray environments. cars, trucks, and painted surfaces.

Description: clear liquid. 43% actives. Ships UPS.

Application: upstream, downstream, pre-spray, hot or cold water.
